25X1

1. The following observations were made in the Zerbst military post on 3 May 1955:  
A large building in the northeastern section of Scharnhorst Kaserne was fully occupied by Soviet Air Force personnel. The following buildings also housed air force personnel:
  - a. The villa-like building on the connecting road between Dobritzer Strasse and the road leading between the firing ranges.
  - b. The 5 villa-like houses north of Scharnhorst Kaserne on the connecting road to the firing ranges and the road called Zur Blumenmuehle. The middle building housed an air force headquarters. Opposite this building was the entrance to Scharnhorst Kaserne.
  - c. Some buildings on Dobritzer Strasse, north of the branch road to the firing ranges and Goethe Strasse. Most of these buildings housed air force officers and their dependents.

           Comment. The buildings near Scharnhorst Kaserne which are occupied by air force personnel are reported for the first time. For location sketch of buildings, on the basis of available information, see Annex.
